Importance: High

**URGENT – RESER'S FINE FOODS RECALL OF REFRIGERATED SALADS – U.S. & CANADA (MUA)
IMMEDIATE ACTION NECESSARY**

Please be aware that receipt of this communication is NOT confirmation that you have received affected product. This correspondence has been distributed as a courtesy to Sysco customer corporate contacts as a notification of a general recall/withdrawal/hold situation. If the unit locations received affected product, they will be contacted by the Sysco Operating Company that services them. If any one of your locations purchased this item(s), regardless of distributor, it is recommended that you check your inventory for affected product.

THIS PRODUCT IS A REPORTABLE FOOD.

Sysco Quality Assurance received notification that RESER'S FINE FOODS is conducting a voluntary product RECALL of REFRIGERATED SALADS. The products in question were shipped between **03/24/2016** and **04/05/2016**

The reason for the RECALL is the products contain onion that was recalled due to potential contamination with *Listeria monocytogenes*. *Listeria monocytogenes* is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, *Listeria* infection can cause miscarriages and stillbirths among pregnant women. **There is food safety concern.**
